

# Premises Energy Audit

A premises energy walk-through with consumption evidence, occupancy, plant and controls, observed opportunities, estimates and follow-up ownership.

## 1. Record details and scope

### Project

Filled in from the project in SiteSurvey.

---

**Site or premises address**

---

**Client or organisation**

---

**Record date \***

---

**Person completing the record \***

---

This records observations and supporting data. It is not an EPC, DEC, ESOS compliance report or a guarantee of savings.

No. ESOS has defined qualification and compliance requirements, including the assessment of energy use and identification of saving opportunities. GOV.UK also provides guidance on implementing opportunities. This walk-through can collect supporting observations, but it does not establish ESOS compliance or replace the required assessment process.

## 2. Scope and consumption

### Walk Cam: energy walk-round

Walk Cam video walk-through: available in the SiteSurvey app only.

**Buildings and systems included \***

---

**Consumption-data period**

---

**Meter, bill or monitoring data references and units \***

## Occupancy and operating hours

---

---

## Missing data and seasonal limitations

---

---

---

## 3. Systems observed

**System or area** (copy this block for each one)

**System, area and asset reference \***

**Operating hours, settings and observed use**

---

---

---

**Potential improvement and supporting evidence \***

---

---

---

**Estimated saving, units and calculation reference if available**

**Assumptions, dependencies and need for specialist assessment**

---

---

---

**Supporting photos** (photos: attach, or note the file names)

---

## 4. Implementation review

**Opportunities selected for further assessment**

---

---

---

## Comfort, safety, maintenance and operational constraints

---

---

### Baseline and proposed verification method

Define the comparison period and changes in occupancy or operation. An estimated saving needs its assumptions and verification method.
