Garden Maintenance Visual Inspection

About this inspection

Record the site, scheduled work and visit date before filming. Walk a repeatable route from overview to lawn edge, beds and a final view. Describe visible outcomes and missed locations, then compare with the agreed specification. A phone recording shows visible condition at one visit. It does not prove plant health, treatment effectiveness, hidden ground condition or that all contracted work was completed. Check the agreed maintenance scope separately.

COMPLETED SAMPLE: the site, organisation and inspector are fictional. Portrait footage was generated in Google Flow. The written observations are scripted, not findings from a real inspection.

1. Site and visit details

Report reference	DEMO-GARDEN-001
Site or asset	Example residential garden (fictional)
Visit stage	Illustrative post-maintenance check
Visit date	09 October 2026
Organisation	Example Grounds Team (fictional)
Inspector	Demo grounds checker (fictional)
Work order reference	Not supplied - demonstration only
Visibility and access	AI-generated views; real access and lighting unverified

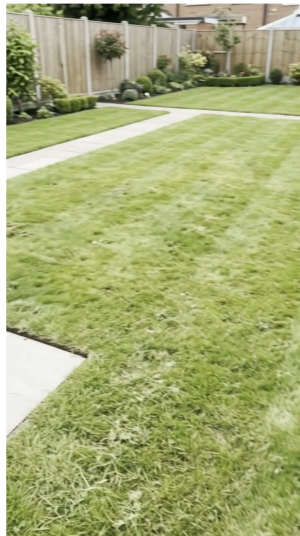

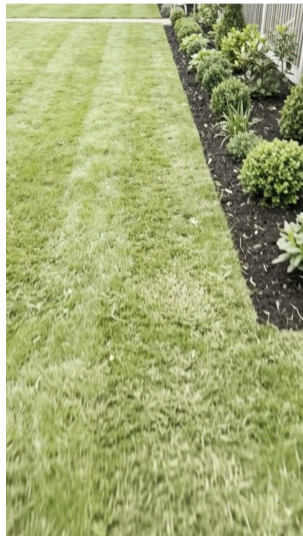

Confirm real site identity, access, visit time and applicable work order in a live inspection. Missing information must not be interpreted as checked or satisfactory.

FORM

Walk Cam evidence**2. Garden overview**

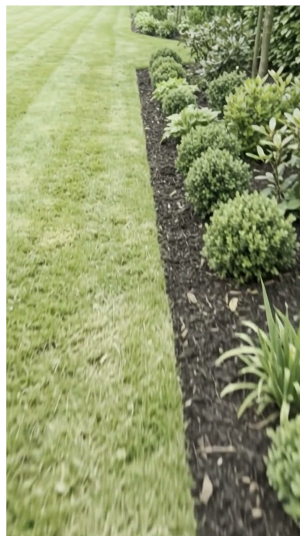

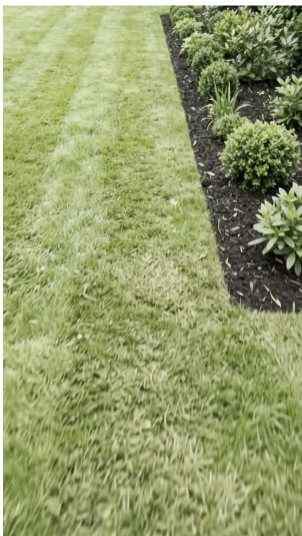

WC-01 / Flow example frames at 00:01, 00:04 and 00:07

1. The staged garden overview shows lawn, border and paving from the patio.
Illustrative observation - verify against the real site before use.

**3. Lawn cut and edge**

WC-02 / Flow example frames at 00:01, 00:04 and 00:07

1. A trimmed lawn edge is visible in the staged view; a full perimeter check is not established.
Illustrative observation - verify against the real site before use.

FORM

Walk Cam evidence**4. Planting bed and debris**

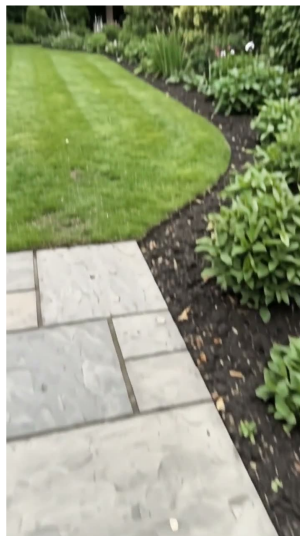

WC-03 / Flow example frames at 00:01, 00:04 and 00:07

1. The planted border is shown in context; hidden roots and plant health are not assessed.
Illustrative observation - verify against the real site before use.

**5. Final planting and context view**

WC-04 / Flow example frames at 00:01, 00:04 and 00:07

1. The staged final clip shows planting bed detail; the path and wider property are not established.
Illustrative observation - verify against the real site before use.

FORM

Review and acknowledgement**6. Review and next actions**

Visible condition summary	The staged footage records the garden layout, visible lawn edge, planting border and a final planting view. It does not confirm all work on a real site.
Follow-up action	Compare the visible areas with the work order, record any missed location, and request a follow-up visit or sign-off by the responsible manager.
Areas not evidenced	Plant species and health, hidden weeds or roots, soil condition, chemical treatment, full site coverage and contract completion were not established.
Review status	Illustrative example only - no real-site acceptance decision

A phone recording shows visible condition at one visit. It does not prove plant health, treatment effectiveness, hidden ground condition or that all contracted work was completed. Check the agreed maintenance scope separately.

7. Inspection scope and acknowledgement

SAMPLE WORDING FOR ADAPTATION: This fictional completed sample is a visual handover aid. Service acceptance, remedies and payment follow the actual maintenance agreement and verified work.

Purpose and limit	A phone recording shows visible condition at one visit. It does not prove plant health, treatment effectiveness, hidden ground condition or that all contracted work was completed. Check the agreed maintenance scope separately.
Corrections and follow-up	Give the relevant people the observations, note any disagreement and record remedial work and a later check.
Immediate hazards	Escalate suspected immediate hazards through the site safety process; a recording does not control a hazard.
Evidence and privacy	Keep original clips, timestamps and comments under the applicable privacy and retention policy. Avoid filming unrelated people or confidential material.
Suggested acknowledgement	I have received the visual record and had an opportunity to comment. Acknowledgement is not automatic acceptance of service performance or a waiver of rights.
Site contact comments / signature	Not obtained - demonstration only
Inspector signature	Not obtained - demonstration only
