

SITE SURVEY REPORT

Hire Equipment Visual Inspection

Prepared for	Example Hire Depot (fictional)
Date	09 Oct 2026
Site	Example hire depot / fictional compact mixer
Prepared by	Demo depot checker (fictional)

FORM

Hire Equipment Visual Inspection

About this inspection

Confirm the equipment ID, hire agreement and handover stage. Film a wide view before visible damage details and supplied accessories. Repeat the route on return and preserve both original records. Video records visible condition only. It cannot establish mechanical or electrical safety, hidden damage, operation, ownership of a defect or liability. Complete the equipment-specific inspection and test process required by risk assessment and manufacturer guidance.

COMPLETED SAMPLE: the site, organisation and inspector are fictional. Portrait footage was generated in Google Flow. The written observations are scripted, not findings from a real inspection.

1. Site and visit details

Report reference	DEMO-HIRE-001
Site or asset	Example hire depot / fictional compact mixer
Visit stage	Illustrative return condition check
Visit date	09 October 2026
Organisation	Example Hire Depot (fictional)
Inspector	Demo depot checker (fictional)
Work order reference	Not supplied - demonstration only
Visibility and access	AI-generated views; real access and lighting unverified

Confirm real site identity, access, visit time and applicable work order in a live inspection. Missing information must not be interpreted as checked or satisfactory.

FORM

Walk Cam evidence**2. Asset identity and context**

WC-01 / Flow example frames at 00:01, 00:04 and 00:07

1. A staged compact hire item is shown with its visible label area; real serial number is not established.
Illustrative observation - verify against the real site before use.

**3. Outer condition**

WC-02 / Flow example frames at 00:01, 00:04 and 00:07

1. Accessible outer surfaces are visible in the illustrative footage.
Illustrative observation - verify against the real site before use.

FORM

Walk Cam evidence**4. Visible fittings and accessories**

WC-03 / Flow example frames at 00:01, 00:04 and 00:07

1. Visible fittings are illustrated; completeness and function are not proven.
Illustrative observation - verify against the real site before use.

**5. Return view and exceptions**

WC-04 / Flow example frames at 00:01, 00:04 and 00:07

1. The staged return view documents accessible surfaces only.
Illustrative observation - verify against the real site before use.

FORM

Review and acknowledgement**6. Review and next actions**

Visible condition summary	The staged clips show an identified compact item, accessible casing, visible fittings and a final return view. The synthetic views are not one verified machine.
Follow-up action	Compare with the issue record and agreement, quarantine any suspected safety defect, and send the equipment to the competent inspection process before rehire.
Areas not evidenced	Asset identity continuity, operation, electrical safety, guards, internal parts, prior condition and cause of any damage were not established.
Review status	Illustrative example only - no real-site acceptance decision

Video records visible condition only. It cannot establish mechanical or electrical safety, hidden damage, operation, ownership of a defect or liability. Complete the equipment-specific inspection and test process required by risk assessment and manufacturer guidance.

7. Inspection scope and acknowledgement

SAMPLE WORDING FOR ADAPTATION: This fictional sample records visible condition for adaptation. Safety release, damage charges and liability require the actual agreement, issue/return evidence and competent checks.

Purpose and limit	Video records visible condition only. It cannot establish mechanical or electrical safety, hidden damage, operation, ownership of a defect or liability. Complete the equipment-specific inspection and test process required by risk assessment and manufacturer guidance.
Corrections and follow-up	Give the relevant people the observations, note any disagreement and record remedial work and a later check.
Immediate hazards	Escalate suspected immediate hazards through the site safety process; a recording does not control a hazard.
Evidence and privacy	Keep original clips, timestamps and comments under the applicable privacy and retention policy. Avoid filming unrelated people or confidential material.
Suggested acknowledgement	I have received the visual record and had an opportunity to comment. Acknowledgement is not automatic acceptance of service performance or a waiver of rights.
Site contact comments / signature	Not obtained - demonstration only
Inspector signature	Not obtained - demonstration only
