EXAMPLE SITE

Illustrative holiday park lodge / four separate scenes

VISIT STAGE

Illustrative changeover check

DATE

17 October 2026

FICTIONAL SAMPLE

The footage was generated in Google Flow. The observations and organisation are scripted examples, not a real inspection.

About this inspection

Record the site, unit, date and who checked. Keep guests out of shot. The four AI-generated clips illustrate one route, not a real hot tub.

VISIBLE RECORD

Four AI-generated clips illustrate the hot tub on its deck, the clipped cover and a worn step, clear water with jets and grille, and the closed cabinet with a rules sign.

SCOPE LIMIT

Video records visible condition. Water quality, disinfectant levels and microbiological testing are recorded separately under the site's written scheme.

2. Point-by-point follow-up

01 Hot tub and surroundings

Note the unit and when it was last drained and cleaned.

02 Cover, straps and steps

Replace the worn step tread and check the straps lock.

03 Water, jets and grilles

Record the water test results in the separate log.

04 Equipment and signs

Keep the cabinet closed and the user rules sign in place.

OVERALL NEXT ACTION

Replace the worn step tread and complete the water tests in the separate log before the next guests arrive.

NOT EVIDENCED

Water quality, disinfectant levels, filter condition and electrical safety were not established from video.

This example describes what appears in fictional footage. Actual findings, actions and sign-off must be made by the people responsible for the real asset or premises.
