

SITE SURVEY REPORT

Pest Evidence Visual Inspection

Prepared for	Example Facilities Ltd (fictional)
Date	09 Oct 2026
Site	Example commercial storeroom / room S-02
Prepared by	Demo site recorder (fictional)

FORM

Pest Evidence Visual Inspection

About this inspection

Identify the premises, room, visit date and recorder. Begin with a wide establishing view. Then record visible signs, damaged-looking packaging and an accessible service gap, stating exactly where each was seen. Do not move contaminated materials just to film. Footage records appearance and location. It cannot identify a pest, confirm current activity, establish an entry route or prescribe treatment. A competent professional must assess the real premises.

COMPLETED SAMPLE: the site, organisation and inspector are fictional. Portrait footage was generated in Google Flow. The written observations are scripted, not findings from a real inspection.

1. Site and visit details

Report reference	DEMO-PEST-001
Site or asset	Example commercial storeroom / room S-02
Visit stage	Illustrative visible-signs visit
Visit date	09 October 2026
Organisation	Example Facilities Ltd (fictional)
Inspector	Demo site recorder (fictional)
Work order reference	Not supplied - demonstration only
Visibility and access	AI-generated views; real access and lighting unverified

Confirm real site identity, access, visit time and applicable work order in a live inspection. Missing information must not be interpreted as checked or satisfactory.

FORM

Walk Cam evidence**2. Room and access route**

WC-01 / Flow example frames at 00:01, 00:04 and 00:07

1. The room entrance, lower shelving and skirting are shown as an establishing view; the example does not show a pest. Illustrative observation - verify against the real site before use.

**3. Suspected visible signs**

WC-02 / Flow example frames at 00:01, 00:04 and 00:07

1. Small dark pellet-like particles are visible by the skirting and shelf leg. Their origin and age are unknown. Illustrative observation - verify against the real site before use.

FORM

Walk Cam evidence**4. Package and stored goods**

WC-03 / Flow example frames at 00:01, 00:04 and 00:07

1. A lower-shelf cardboard package has a rough-looking torn corner and paper fibres. The cause is not established. Illustrative observation - verify against the real site before use.

**5. Visible service opening**

WC-04 / Flow example frames at 00:01, 00:04 and 00:07

1. A small visible gap surrounds a service-pipe penetration near the floor. No animal passage is shown. Illustrative observation - verify against the real site before use.

FORM

Review and acknowledgement**6. Review and next actions**

Visible condition summary	The clips show the storeroom, dark particles by a skirting, torn-looking packaging and a service-pipe opening. Pest identity and activity are unknown.
Follow-up action	Follow site and food-safety procedures, protect potentially affected goods and request a competent pest-control assessment.
Areas not evidenced	Species, live activity, sign age, contamination extent, entry route and control effectiveness were not established.
Review status	Illustrative example only - no real-site acceptance decision

Footage records appearance and location. It cannot identify a pest, confirm current activity, establish an entry route or prescribe treatment. A competent professional must assess the real premises.

7. Inspection scope and acknowledgement

SAMPLE WORDING FOR ADAPTATION: This fictional visual record is not a pest-control survey, diagnosis, treatment recommendation or declaration of safety.

Purpose and limit	Footage records appearance and location. It cannot identify a pest, confirm current activity, establish an entry route or prescribe treatment. A competent professional must assess the real premises.
Corrections and follow-up	Give the relevant people the observations, note any disagreement and record remedial work and a later check.
Immediate hazards	Escalate suspected immediate hazards through the site safety process; a recording does not control a hazard.
Evidence and privacy	Keep original clips, timestamps and comments under the applicable privacy and retention policy. Avoid filming unrelated people or confidential material.
Suggested acknowledgement	I have received the visual record and had an opportunity to comment. Acknowledgement is not automatic acceptance of service performance or a waiver of rights.
Site contact comments / signature	Not obtained - demonstration only
Inspector signature	Not obtained - demonstration only

Sources and template notes

8. Supporting guidance

Food Standards Agency · Safer food, better business: pest control	FSA guidance lists visual signs such as droppings, footprints, damaged packaging and holes, and calls for regular premises checks and action. See the source link on the accompanying landing page.
British Pest Control Association · Signs of uninvited guests	BPCA identifies droppings, nests and gnaw marks as possible signs and recommends professional help when activity is suspected. See the source link on the accompanying landing page.
Review date	09 October 2026

These sources inform the scope notes but do not endorse this sample. The fictional clips do not establish compliance or specialist findings.
