FORM

Warehouse Condition Visual Inspection

About this inspection

Identify the warehouse, aisle and operating state. Capture a wide view before focusing on accessible route surfaces, a loading-bay threshold and a designated housekeeping area. Record any unsafe or inaccessible area without entering it. This is a visual workplace-condition record, not a full health and safety audit, traffic-management review, fire assessment, floor-load test or racking inspection. Do not film while walking in an active vehicle route.

COMPLETED SAMPLE: the site, organisation and inspector are fictional. Portrait footage was generated in Google Flow. The written observations are scripted, not findings from a real inspection.

1. Site and visit details

|                       |                                                         |
|-----------------------|---------------------------------------------------------|
| Report reference      | DEMO-WAREHOUSE-001                                      |
| Site or asset         | Example distribution unit / aisle A-03                  |
| Visit stage           | Illustrative quiet-period condition visit               |
| Visit date            | 09 October 2026                                         |
| Organisation          | Example Distribution Ltd (fictional)                    |
| Inspector             | Demo facilities recorder (fictional)                    |
| Work order reference  | Not supplied - demonstration only                       |
| Visibility and access | AI-generated views; real access and lighting unverified |

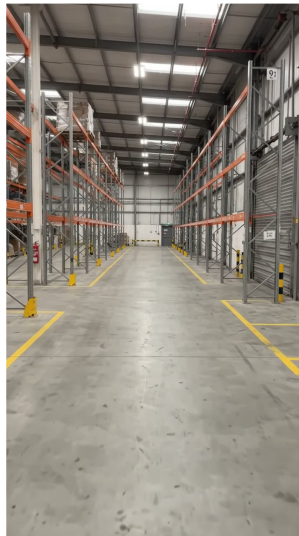

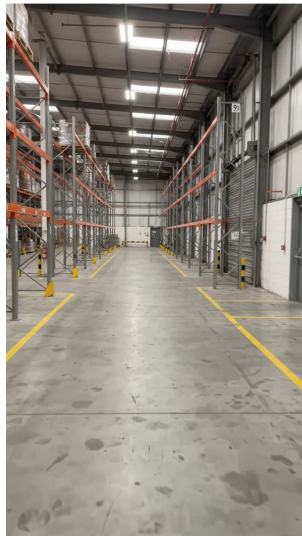

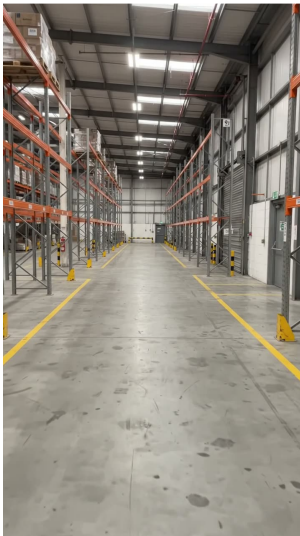

Confirm real site identity, access, visit time and applicable work order in a live inspection. Missing information must not be interpreted as checked or satisfactory.

## FORM

**Walk Cam evidence****2. Aisle and pedestrian route**

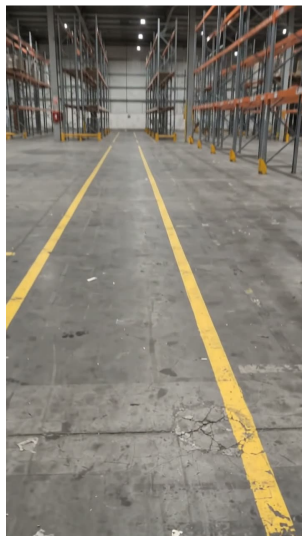

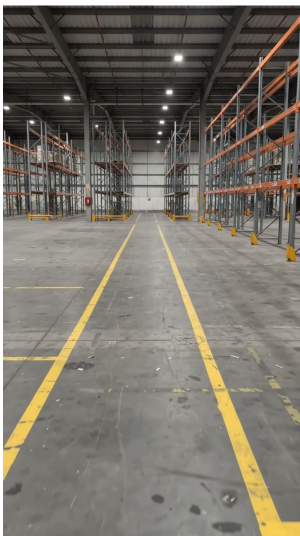

WC-01 / Flow example frames at 00:01, 00:04 and 00:07

1. The aisle, route marking and general condition are visible in a wide view.  
Illustrative observation - verify against the real site before use.

**3. Floor and route marking**

WC-02 / Flow example frames at 00:01, 00:04 and 00:07

1. The floor beside the yellow pedestrian route marking is shown; any apparent wear needs an in-person check.  
Illustrative observation - verify against the real site before use.

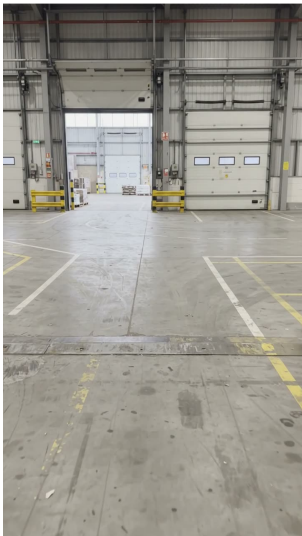

## FORM

**Walk Cam evidence****4. Loading-bay door threshold**

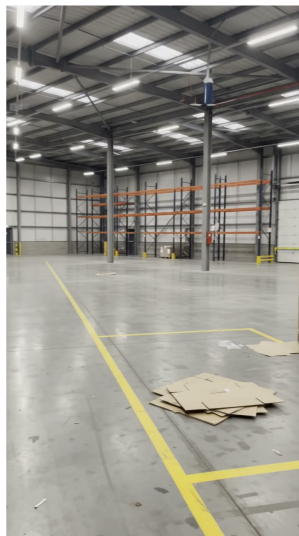

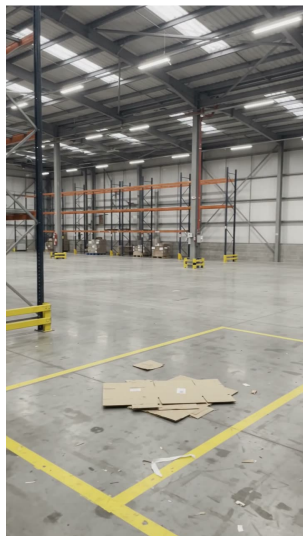

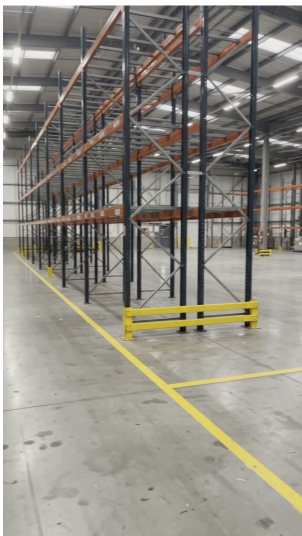

WC-03 / Flow example frames at 00:01, 00:04 and 00:07

1. A worn-looking threshold strip and adjacent scuffing are visible.  
Illustrative observation - verify against the real site before use.

**5. Housekeeping area**

WC-04 / Flow example frames at 00:01, 00:04 and 00:07

1. Loose cardboard is visible near, but not across, the marked route.  
Illustrative observation - verify against the real site before use.

## FORM

**Review and acknowledgement****6. Review and next actions**

|                           |                                                                                                                                                 |
|---------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| Visible condition summary | Four clips show aisle context, a marked floor route, a worn-looking loading threshold and loose cardboard near a designated area.               |
| Follow-up action          | Verify the route and threshold in person, manage any immediate trip or traffic concern under site procedures and assign housekeeping follow-up. |
| Areas not evidenced       | Live vehicle movements, traffic controls, floor load capacity, fire precautions and racking condition were not assessed.                        |
| Review status             | Illustrative example only - no real-site acceptance decision                                                                                    |

This is a visual workplace-condition record, not a full health and safety audit, traffic-management review, fire assessment, floor-load test or racking inspection. Do not film while walking in an active vehicle route.

**7. Inspection scope and acknowledgement**

SAMPLE WORDING FOR ADAPTATION: The sample is illustrative. Warehouse operators must assess and control hazards under their own site procedures and competent advice.

|                                   |                                                                                                                                                                                                                           |
|-----------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Purpose and limit                 | This is a visual workplace-condition record, not a full health and safety audit, traffic-management review, fire assessment, floor-load test or racking inspection. Do not film while walking in an active vehicle route. |
| Corrections and follow-up         | Give the relevant people the observations, note any disagreement and record remedial work and a later check.                                                                                                              |
| Immediate hazards                 | Escalate suspected immediate hazards through the site safety process; a recording does not control a hazard.                                                                                                              |
| Evidence and privacy              | Keep original clips, timestamps and comments under the applicable privacy and retention policy. Avoid filming unrelated people or confidential material.                                                                  |
| Suggested acknowledgement         | I have received the visual record and had an opportunity to comment. Acknowledgement is not automatic acceptance of service performance or a waiver of rights.                                                            |
| Site contact comments / signature | Not obtained - demonstration only                                                                                                                                                                                         |
| Inspector signature               | Not obtained - demonstration only                                                                                                                                                                                         |
